## 7.28 Medical Assistance

- a) In a minor injury, such as, in the case of a broken nail, the JA Medical Doctor or a Medic is allowed to assist in cutting the nail. The JA Medical Doctor or a Medic may also help in adjusting a Scrotum injury (testicles).
- b) In a bleeding injury, for safety measures, whenever there is blood, it must always be completely isolated with the assistance of the JA Medical Doctor or a Medic by means of adhesive tape, bandages and/or nasal tampons. The use blood of clotters and haemostatics products are permitted.

When the JA Medical Doctor or a Medic is called to assist a contestant, such medical assistance should be given as quickly as possible.

Note: With the exception of the above situations, if the JA Medical Doctor or a Medic applies any treatment the opponent shall win by kiken-gachi.

Any 'significant' amount of blood (as determined by the JA Medical Doctor, Medic or Referee) will necessitate a change of judogi.

## TIMEKEEPERS AND RECORDERS

- 8.1 Timekeepers and recorders must be responsible persons with adequate judo experience and a good knowledge of the contest rules and be thoroughly trained prior to officiating.
- 8.2 There shall be a minimum of 2 timekeepers per mat (1 to register the time of the contest, 1 to register osaekomi and the scores and where possible a third to supervise).
- 8.3 Although it is the responsibility of the Organising Committee to inform the timekeepers of the duration of each contest, the timekeepers should ensure that at the start of each event they are aware of the agreed duration. See also 11.1.
- 8.4 The contest recorder must ensure that he/she is completely informed of the current signals and signs in use to indicate the result of a contest in accordance with the contest rules and this Code.
- 8.5 The Organising Committee must ensure that the Officials at the recording and time-keeping tables are left in isolation and are not bothered by spectators, competitors, press or officials.
- 8.6 The overall timekeeper starts the clock or watches upon hearing the comments “hajime” or “yoshi” and stops it on seeing the signal for matte or on hearing “matte” or “sono-mama”.
- 8.7 The osaekomi timekeeper starts the clock or watches on hearing “osaekomi”, stops it on hearing “sono-mama”, re-starts it on hearing “yoshi”. On hearing “toketa” or “matte” stops the clock and indicates the number of seconds elapsed to the Referee. On expiry of the time for osaekomi (20 seconds) indicates the end of the osaekomi by means of the signal bell or other means provided. Osaekomi for at least 10 seconds is awarded a wazaari.
- 8.8 When the time allowed for the contest has expired the timekeepers shall notify the Referee of this fact by ringing the bell or other means of signalling, in accordance with Article 11 of the contest rules.
- 8.9 Timekeepers should also be particularly aware of Article 12 of the contest rules.
- 8.10 The electronic system of timekeeping and scoring needs to be approved by the Chair of the Sports Committee. A JA endorsed system must be used at the National Championships and at International Events.

- 8.11 No protests against Referee decisions are allowed. The final Referee decision made will be final and without any further appeal. After the Referee decision is awarded, the competitor must leave the mat immediately. If the player does not leave the mat within 30 seconds of the final decision being made – they will be disqualified from the competition and may be subject to disciplinary action.
- 8.12 Private videos are not permitted to be used in evidence to challenge any decisions. The Referee Committee may use a time delayed (such as CARE) system to correct Referee decisions and the Chair of the Sports Committee may use the system. Specific protocols for the use of the CARE system are outlined in attachment 9.

## **WEIGH – IN**

- 9.1 The Organising Committee shall make available at a time specified in the tournament notice, weighing machines, a minimum of one for Men and one for Women. These machines shall be used for the official weigh-in and wherever possible, be at the same location as the Championship in order to avoid errors due to transportation of the machine. Weighing machines are to be placed on a hard level surface.
- 9.2 Separate rooms for males and females must be available for the unofficial and official weigh-in.
- 9.3 The competitors shall be allowed at least 1 hour before the official weigh-in to check their weight on the official weighing machines. There is no limit to the number of times a contestant may check their weight during this time.
- 9.4 Under exceptional circumstances if there is only a single set of scales for trial and official weigh-ins, a competitor may make a trial weigh-in during the official weigh-in period only after advising the weigh-in official that they are conducting a trial weigh-in. This advice is to be provided before stepping on the scales.
- 9.5 The official weigh-in for each division shall be conducted the afternoon before that division is contested. The official weigh-in control period for each division shall be a minimum of half an hour (30 minutes) in duration, or as advised in the official program. In special circumstances, such as when an athlete is still competing and the official weigh-ins being conducted, the Chair of the Sports Committee may extend the weigh-in period for those athletes but the weigh in must occur that day. In the case of Kyu Grades and Veterans the weigh-in may take place on the day of competition.
- 9.6 The competitor shall weigh-in wearing only underclothes, under the supervision of a weigh-in official. The competitor may be requested to remove their underclothing to ensure they reach the minimum weigh limit of the weight category in which they are entered. For Cadets and the Boys and Girls age categories competitors will not be requested to remove their underclothing and an additional 100 grams will be allowed for their weight categories limits.
- 9.7 During the official weigh-in, the weight of a competitor shall be officially determined once. The weigh-in Official, however, may give permission or may order a competitor to demount the scale during the official weigh-in and then allow the competitor to re-weigh after following the direction of the official weigh-in Official.
- 9.8 Each competitor shall bring to the weigh-in their student identification card, driver's license or an official identification document with photo. The competitor shall present the document to the Official, who will verify the identity of the competitor.
- 9.9 Should a contestant fail to turn up to the weigh-in during the official weigh-in period this shall be noted beside their entry on the official weigh-in sheet. The notation will be signed by a weigh-in Official and an adult person as a witness.

- 9.10 Should a contestant weigh either above or below the prescribed limits for the division in which they are entered, the exact weight shall be recorded in the normal manner. No tolerance shall be allowed either above or below the weight category. Recording of weights shall be in kilograms accurate to one decimal point of a kilogram. The weight shall be circled and signed by a weigh-in Official and by the contestant. The contestant shall be excluded from competing in that weight division.
- 9.11 Electronic/digital mass measuring machines shall be used with an accuracy of a tenth of a kilogram (ie showing one decimal only).
- 9.12 The Officials supervising the scales must be of the same sex as the competitors weighing in. Should no such Official be available, then two scrutineers who are of the same sex as the competitor shall be appointed, subject to the approval of the Chair of the Sports Committee.
- 9.13 The Chair of the Sports Committee (or in his absence members of the Sports Committee) shall be responsible for the control of the weigh-in.
- 9.14 Referees, including female referees, may be rostered for weigh-in duties.
- 9.15 Photography or filming is not permitted in the weigh-in area. Mobile phones may not be used in the weigh-in area.
- 9.16 Only one Coach and team Official per State is permitted during the official weigh-in. In the case that the Coach or team official is not available this role may be delegated to a team member.
- 9.17 If at any stage during the weigh-in period, a competitor fails to comply with the directions of any weigh-in Official or a member of the Sports Committee, or fails to comply with the requirements of the Sporting Code, the competitor shall be prevented from participating in the weigh-in and the nature of the infraction brought immediately to the attention of the Chair of the Sports Committee.
- 9.18 The JA discourages senior girls & boys, junior girls & boys and mons girls & boys (players who turn 8 years or less in the current calendar year, with a minimum age of 5 years old) who have entered tournaments to weight cut using excessive heat methods or fluid restriction in any form. This includes the use of rubber suits, steam rooms, hot boxes, saunas, laxatives, diuretics, and induced vomiting.
- 9.19 Team officials and coaches are prohibited from encouraging rapid and excessive (more than 3% body weight) weight cutting using methods including but not limited to those outlined in the above clause.
- 9.20 Any athlete in those categories described that are found to be undertaking such excessive weight cutting will be banned from competing. This decision will be made jointly by the Sports Director and JA Medical Doctor.

## **DRAW PROCEDURES**

### **The draw and pools**

- 10.1 The competition draw shall be held prior to the weight division being contested and as communicated in the official approved program. Refer to Attachment 15 for Veterans competition draw.
- 10.2 There shall be a large white screen for projecting the draw during the draw. A whiteboard, markers and eraser should also be made available.
- 10.3 If possible, the draw should be conducted in a room separate from the tournament.
- 10.4 The draw shall be made by the Chair of the Sports Committee or a member of the Sports Committee with one (1) member of each competing State or Territory authorised to be in attendance.

- 10.5 Should a contestant be drawn in the wrong weight division and the State or Territory representative is not present at the draw, the State or Territory shall incur a fine. The fine will be determined by JA.
- 10.6 If there is only one entry in a weight division, the player will be entered and compete in the next weight class (if the heavier weight division has no entry, no competition will take place). After all divisions have been contested and subject to entries, Organisers may combine divisions, to ensure competitors have a match. Combining weight divisions in an age group must take into account the competitor's weight, skill sets etc to ensure a safe environment and avoid injury. These combined weight divisions will not attract any national selection points.
- 10.7 For cadets, junior men/junior women, senior men and senior women divisions with 6, 5 or 4 players, should a competitor withdraw and notify the Sports Director prior to the start of the division block, the division will be redrawn. This is done to avoid the potential scenario of a player being placed with a medal without having won a match. For other categories, such as kyu, masters/veterans, boys and girls, where there is a withdrawal, the draw will be maintained.

#### **Seedings and Draw Procedures**

- 10.8 Competitors from the same State, where possible, should be drawn into separate halves of the draw.
- 10.9 The National Points System shall be used to seed players in the Senior Men's, Senior Women's, Junior Men's, Junior Women's, Cadet Men's and Cadet Women's divisions. Seeding shall include non-Australia residents.
- 10.10 For Boys and Girls Divisions, competitors will be given maximum separation by State and then by Club where possible.
- 10.11 For divisions with 6, 7 and 8 players, 4 seed will be placed in the draw. For divisions with 4 or 5 players only two seeds will be placed in the draw.
- 10.12 For Cadets, Junior Women/Men, Seniors Women/Men, with divisions with 9 or greater athletes, a maximum of the top eight (8) athletes among the entered athletes in each weight category will be seeded based on their nationals points table. For the rest of the draw separation by States will be respected. In a category, seeding has the priority over State entries of the athletes. This means that athletes of the same State may end up in the same pool because of their seeding position or because there is no other possible position for them due to the ranking of the other athletes.
- 10.13 Where athletes/teams have the same ranking position, the draw system will automatically do a pre-draw to define the athlete seeding position.
- 10.14 Seeding in the elimination bracket system is set up to have the draw placing the:
- Number one (1) seed vs. the number eight (8) seed in Pool A
  - Number two (2) seed vs. the number seven (7) seed in Pool C
  - Number three (3) seed vs. the number six (6) seed in Pool D
  - Number (4) seed vs. the number five (5) seed in Pool B
- 10.15 Seeded athletes are always placed in the same position on the draw sheet.
- 10.16 Seeded athletes/teams, when possible, do not have to compete in the first round. When there is an incomplete round the seeded athletes/teams do not have to compete in the first round.

- 10.17 Seeding in the low numbers 3+2 system is set up in order to have the draw placing the number one (1) seed in the lower half while the number two (2) seed is placed in the upper Round Robin half.
- 10.18 Seeding in the low number draws 2+2 system is set up in order to have the draw placing the number one (1) seed in the top half and the number two (2) seed in the lower half.
- 10.19 There will be no seeding in the Veterans or Kyu Grade championships.
- 10.20 The draw must ensure a maximum separation of byes.
- 10.21 The places in each division shall be decided according to the elimination used – see Attachment 2 and 3.
- 10.22 “Round Robin” is defined as a system where each athlete will compete against each other. To determine placings, the following criteria are used:
- First criterion: Number of Wins.
  - Second criterion (in case of an equal number of wins): the highest sum of winning points will decide the placings. Ippon/waza-ari-awasete-ippou = 100, Waza-ari = 10, Yuko = 1. All scores achieved will be counted for both the winner and loser. A player can get a maximum of 100 points per contest.
  - Third criterion (in case where number of wins and the sum of winning score points are equal): direct comparison: if two contestants have an equal number of wins and the same number of points, the contestant who won the contest between them is defined as the better.
  - Fourth criterion (in case of equal number of wins and no direct comparison possible because of ‘beating in circle’ where all players win by ippon): the shortest accumulated time of all winning contests will decide.
  - Fifth criterion (in case of equal time): weight at the weigh-in. The athlete with the lower weight is defined as the better.
  - Sixth criterion (in case of same weight): decision match. A knockout system between the players involved will be used. A new draw will be performed. Example, in the case of three athletes: one contest between two players will be held. The winner of this match will compete against the third player to get a final decision.
- 10.23 Points will be given as follows:
- Ippon, fusen gachi or kiken gashi – 100 points
  - Waza-ari – 10 points
  - Yuko – 1 point
- 10.24 The same points apply regardless of whether they are achieved in regular time or during Golden Score.
- 10.25 In Round Robin systems, players from the same State/Club shall compete first, before competing against other competitors where possible.

## CONTEST DURATION

- 11.1 The official contest time duration of JA shall be as follows:

After a period of one (1) minute, following the call, that competitor will forfeit their match.
- 11.7 All Officials and competitors should be aware that for the Senior Boys/Girls and Junior Boys/Girls if one competitor is not at their place on the contest area one call for that competitor will be made. After a period of ninety (90) seconds, following the call, that competitor will forfeit their match.
- 11.8 All finals at National Tournaments are to be staged to begin at a given time after the preliminary eliminations have been finalised. The eliminated division and finals must take place on the same day.
- 11.9 There is no time limit in Golden Score time for all divisions.

## **DISCIPLINE**

- 12.1 Any Official of a Team or person related to a contestant who interrupts the orderly running of the contests or of the Championships may be declared unacceptable by JA and from the moment JA decides they must leave the premises unless granted restricted admission to the venue.
- 12.2 In any case of misbehaviour by a competitor which merits disqualification JA may exclude that competitor from the remainder of the tournament and/or any subsequent tournaments.

- 12.3 Should a Team Manager wish to clarify some aspect of the competition proceedings which he considers may be irregular, the query must be made by a team Official in writing and directed to the Chair of the Sports Committee or in his absence a member of the Sports Committee.

- 12.8 A written report detailing the incident, including the final decision, is to be prepared by the JA CEO (or their delegate), or the National MPO (or in their absence, the Tournament Director), and is to be sent to the Disciplinary Committee, c/o the CEO, within 1 day of the date of the incident. The report must state the following: the facts, including the recall of the alleged facts, a summary of the observations and arguments of the parties, the grounds for the decision and any other comments.
- 12.9 The Disciplinary Committee is to review and provide any sanctions they see as appropriate to the JA CEO within 14 days.

## **AWARDS AND CEREMONIES**

### **Opening Ceremony**

If an athlete has suffered concussion 4 weeks prior to the Nationals or has a medical condition, States must, as part of the entry process, advise the Chair of the Sports Committee and provide him/her with the supporting medical clearance that the athlete can compete. This information and medical advice will enable the JA Medical Doctor or the other authorised person to determine whether the player should compete. Mouthguards are permitted provided they are properly fitted by a dentist. Documentation at each competition needs to be provided to the Chair of the Sports Committee and the player must also notify the mat Referee that they have a mouth guard each time he/she enters the mat to compete.

## Judo injury data base collection - ATTACHMENT 5

The aim of this database collection form is to determine the extent of judo specific injuries during local and international events. The treating officer is encouraged to keep a copy for the purpose of a personal and official record of encounters or consultations.

The use of such collection would be to aid in the prevention of injuries should such factors be found. Things such as an ideal safety mat perimeter crowd encroachment, timely access to appropriate local medical services, or some totally unforeseen situation.

Weight should be the primary consideration when moving players about within their own age division or combining them with other age divisions in accordance with the age division guidelines below.

**Agreement to continue in the competition after strangulation**

Current advice is that unconsciousness, when caused by shime waza and when applied in the controlled environment of judo at competitions, is associated with full and rapid recovery even if a convulsion has occurred. Also it appears, based on current evidence, that there are no long-term consequences. However it is important to note that there have been no validated studies on the possible long-term issues. If you understand this statement and wish to continue to compete in this competition, please sign below. Be aware that you will not be allowed to continue further if unconsciousness occurs more than once at this competition.
